

COLLOQUIUM SERIES

Infant Language Acquisition: Beyond Nature Versus Nurture

Date: January 15, 2010

Location: Somerville House, Room 3345

Time: 3:00 - 4:00 p.m.

(Please join us after the talk for light refreshments.)

Dr. Jenny R. Saffran

Department of Psychology
University of Wisconsin-Madison

Abstract:

How do infants acquire their native language? In our lab, we focus on the learning mechanisms that underlie successful language acquisition. In my talk, I will focus on recent results, from both typically and atypically developing infants and children, that pinpoint powerful learning mechanisms supporting the acquisition of language and other complex systems.
