Objective

The purpose of this course is to examine psychological issues associated with work groups (or teams) in organizational settings. Particular attention will be given to the implications, for work attitudes and performance, of the design, structure and composition of groups, as well as the congruence between structure/process variables associated with the group and those of the organization in which it is embedded. Throughout the course, emphasis will be placed on methodological issues associated with work group / team research.

Evaluation

2 thought papers / critiques (10 % each)  20%
Seminar  20%
Research paper  40%
Participation  20%

Timing of Stuff  Thought papers must be submitted by the beginning of the class for which they are prepared. The research paper is due on December 16. Seminar presentations (30-45 minutes plus questions/comments) will be given during the last 2-3 weeks of class; specific schedules will be determined once the course is underway.
