An established private practice in midtown Toronto is looking for a committed and motivated individual to administer a wide range of psychometric tests including the ADOS, and prepare written reports, for a one year contract commencing the end of June 2015. The clients served are primarily preschool and school age children with a variety of developmental, behavioural, and learning disabilities.

Successful candidates will have outstanding interpersonal skills, experience with pre-school and school age children, psychometric tests and report writing, as well as an interest in further training and self-development. Post-graduate training, as well as direct work or practicum experience are absolute prerequisites in order to be considered. Particular experience with Autism Spectrum Disorders and ADHD is necessary.

A minimum of a Masters Degree or equivalent is required, with preference for individuals qualified for registration with The College of Psychologists of Ontario. Supervision for registration is readily available.

Please email, fax or mail typed resumes to Carla Freedman, Office Manager. Only qualified candidates will be contacted for interview. No telephone calls please.
