

HONOURS SPECIALIZATION IN PSYCHOLOGY - B.A. with HONOURS IN BUSINESS ADMINISTRATION - HBA

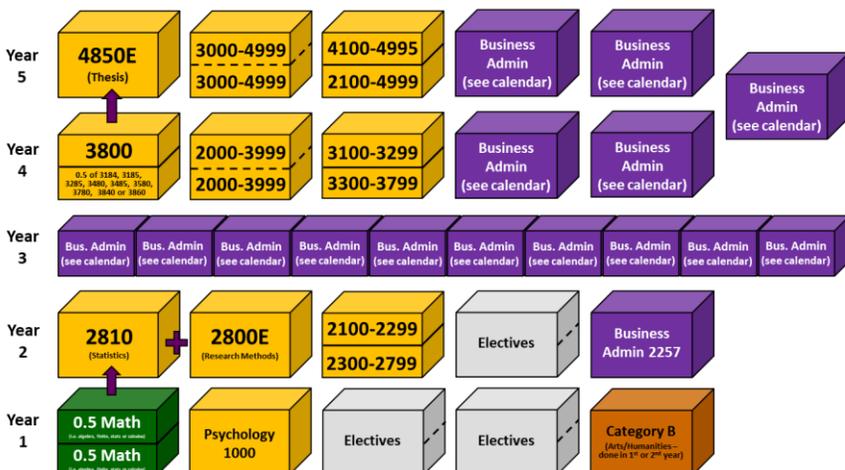

Purpose of the Combined Hon.Spec. in Psychology BA with the IVEY HBA: The combined Psychology-Ivey program allows students to complete all the requirements of the Honours BA in Psychology and the Honours Business Administration degree in a 5-year time frame. The training provided by the HBA program prepares students graduating with a HSP in Psychology to compete for professional careers in the administration of agencies that provide mental health and social services, or alternatively, enhances their preparation for graduate training in business related fields of Psychology (e.g., Industrial/Organizational Psychology).

Admission Requirements: To be eligible for admission to the **Honours Specialization in Psychology BA** portion of this program, students must complete 5.0 first-year courses by May 1, with no failures, and must have an average of at least 75% in 3.0 principal courses, with no mark in these principal courses below 60% (**however**, because this is a competitive program, the cut-off average is usually above the minimum of 75% - **currently the actual cut-off is 80%**). 2.0 of the principal courses must include the Psychology and Mathematics courses. The 1.0 additional principal course will be any course, other than Psychology or Mathematics, in which the student receives the highest final mark. Please see the "Mathematics Requirements" under Future Students on our Psychology Undergraduate homepage, where it lists first-year Math courses and their high school prerequisites. The recommended first-year university Math courses are Math 1228A/B and Statistical Sciences 1024A/B. **PLEASE CONSULT THE MOST RECENT CALENDAR FOR THE ADMISSION REQUIREMENTS OF THE HBA PORTION OF THIS COMBINED DEGREE.**
